COMPANY OVERVIEW

CABLINS ESTABLISHMENTS
LIMITED

ABOUT US

Cablins Establishments Limited (CabLinks) was established and incorporated in Uganda as a private limited liability company in the year 2015. The company was incorporated to engage majorly in the business of aggregating and processing green, roasted and ground Arabica and Robusta Ugandan coffee beans and exporting the same to various parts of the world. The company's primary objective is to bridge the gap between the coffee farmer, the roaster and the importer of coffee in a sustainable and traceable manner, at competitive prices for all players involved along the entire chain and on favourable terms.

We aggregate our coffee mainly through individual farmers and farmer groups, and to a small extent agents and local traders. We meticulously source our Arabica coffee from the regions of Kigezi, Rwenzori, West Nile and Mount Elgon. On the other hand, our Robusta coffee is sourced from the Central, East Central and Western regions of Uganda.

VISION

To be the supplier of choice for Fair Average Quality and Specialty Coffee as well as Cocoa in Uganda

MISSION

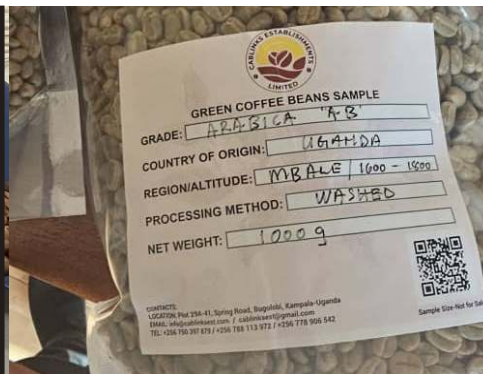

To export coffee and cocoa that exceeds minimum acceptable quality standards at the most competitive price, which ensure a fair return on investment to the source farmer.

PRODUCTS & SERVICES

COFFEE

At CabLinks we offer a range of Natural and Washed Robusta and Arabica Coffee beans that have been meticulously sourced and aggregated from different regions in Uganda. Once our coffee is received from the farmers, it is well cleaned, hulled, graded, colour sorted, well packed and labeled, inspected and certified by the responsible government authorities before it is shipped to the destination markets.

- **For Robusta**, we offer Fair Average Quality (FAQ) in Screen 12, 15, 17 and 18 varieties.
- **For Arabica Coffee**, we offer Natural Arabica (DRUGAR) and A, AA, PB for Washed Arabica Coffees.

COCOA

We source, aggregate, process and supply Cocoa beans to the various markets that need them.

TEA

We source, aggregate, process and supply Cocoa beans to the various markets that need them.
